

- Size 430 x 240 x 5 mm
- Easy way to count entering people to vehicle
- Accuracy 97 %
- Manufactured with durable materials

PHYSICAL PROPERTIES

Dimensions, mm	430x240x5
Connection	2 pin
Housing	Rubber

CONTACTS

Step detector connection to FM device

Technical specification

Normal power supply voltage	12 - 24 V DC
Maximum supply voltage	Up to 40 V DC
Maximum power consumption	100 mA
Ambient temperature range	-40 - +80 °C
Weight	2 Kg

Pinout

Brown	Power supply
Blue	Ground

FM device configuration

Configure two IO parameters – *Fuel Counter 1* and *Fuel Counter 2* according to example to the left.
